

**Common Thread**  
BCFS Health & Human Services

**We're  
with you,  
no matter  
what.**

**Call it sex trafficking, call it survival sex. By any name, YOU are a **Survivor** and YOU have the strength to leave it behind. Let us be by your side.**

Common Thread provides:

- An assigned advocate who is dispatched and responds immediately to come meet you at the time of referral and in crisis situations.
- An entire team of advocates to help you. We can support you through forensic exams and interviews, attending legal proceedings, and by connecting you to community resources that can help you take back control of your own path.
- Continuous, long-term, non-judgmental support, even if your journey has some twists and turns along the way.

**Never alone, never again!**
